

FEMDEX

SERVICES PTY (LTD)

COMPANY PROFILE

| Diesel Pumps | Submersible Pumps | Centrifugal Pumps | Horizontal Split |

| Lightning Plants | Generators | Plant Hire | Pipe Lines (HDPE, Suction hoses, Lay flat hose) |

Our Vision

We are dedicated to creating a workplace that respects and values people from diverse backgrounds and enables all employees to do their best work. It is an inclusive environment where the unique combination of talents, experiences and perspective of each employee makes our business success possible.

Respecting the individual means ensuring that the workplace is free of discrimination and harassment. Our commitment to equal to employment and diversity through constant empowerment and educational drives.

Our Mission

Our belief and vision is guided by relentless focus on our value system as a company and organization, we constantly strive to implement critical initiatives that requires us to achieve our vision. In doing this we will deliver operational excellence in every sphere of our business thus meets and exceeds our commitment to our various clientele that we humbly serve.

All of our long term strategies and short term strategies are moulded by a set of core values that are shared by every employee.

Our Goals

Offering Unbeatable Service and supplying proven range of brand names in the industrial de-watering and mining equipment industry.

All work and specific conditions of our permit are based on SANS ISO 9001 quality management.

**"INSPIRED BY PASSION,
DRIVEN BY COMMITMENT"**

Our Main Focus: Dewatering Services

Dewatering is the removal of water from solid material or soil by wet classification, centrifugation, filtration or similar solid-liquid separation process such as removal of residual liquid from a filter cake by a filter press as part of various industrial processes.

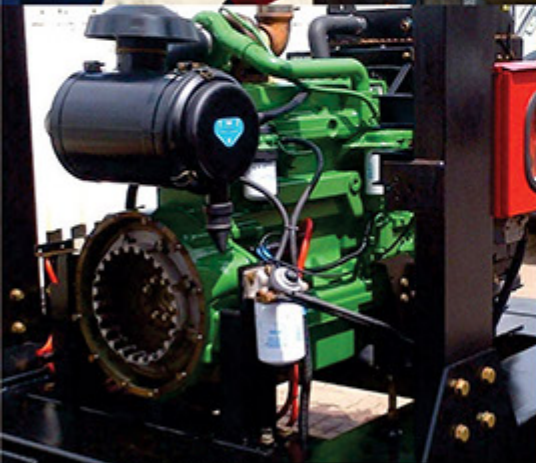

Construction dewatering, unwatering or water control are common terms used to describe removal or draining groundwater or surface water from a riverbed, construction site, caisson or mine shaft by pumping or evaporation. On a construction site, this dewatering may be implemented before subsurface excavation for foundations, shoring or cellar space to lower the water table.

This frequently involves the use of submersible "dewatering" pumps, centrifugals (trash) pumps, eductors or application of vacuum to well points.

Services & Repairs

- Dewatering
- Flameproof and non Flameproof submersible pumps
- Pipelines
 - HDPE
 - Suction Hoses
 - Lay Flat Hose
- Diesel motors
- Flameproof and non Flameproof Control Panel services
- Sales Advise and Specific Evaluation
- Maintenance services
- Disaster Management
- Project management
 - Inception to finalisation
- Custom Build Diesel Units
- General Engineering
- Plant Hire
 - Heavy/light mining machinery
- Pumps
 - Diesel Pumps
 - Submersible Pumps
 - Centrifugal Pumps
- Horizontal Splits
- Lightning Plants
- Generators
- Electrical Motors
 - Flameproof
 - Non-flameproof

FEMDEX
SERVICES PTY (LTD)

Our trusted suppliers

• Pioneer	• Grundex	• Eagle pumps
• Cornell	• Weir Envirotech	• Howden pumps
• Gormann Rupp	• Warman	• Hippo pumps
• Flygt	• Hydrostal	• Grundfos
• Tsurumi	• E.I.M	
• K.S.B	• Morris
